cand months a 25-year partnership. Clayton Hickerson came here from the Commerce Journal to succeed Craig as editor.

Craig came to Texas in 1907 from Kentucky. He purchased the Kemp News in 1908 and recalled that he printed that paper on a Washington hand press for eight months. He published papers at Kiigore and Chandler before coming to Athens in 1916 when he and Barnes purchased the paper from the late Col. R. E. Yantis. Like his predecessor, Craig has taken an active interest in Texas politics, though never seeking an office himself.

In his final editorial Craig admonished business men that "under the guise of national unity and defense, murder of private enterprise is being committed on a gradual scale." He warned that "an effort is heing made to transform the economic system of private enterprise into a system of collectivism."

The retiring editor said that most of his associates in the country newspaper field had ceased to express their opinion and were using 'canned' editorials." Beware Coughs Following Flu

After the flu is over and gone, the cough that follows may develop into chronic bronchits if neglected. Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.
